

PUSH IN CEREMONY

SEPSA Fire Authority Station

Come celebrate with us the arrival and placing in service of our new Engine 920! This tradition has been around the fire service for centuries. Back in the 1800's fireman use to push in their horse drawn fire apparatus. Today we keep that tradition alive by pushing our new Engine into the station.

**Meet and greet with your SEPSA Fire/EMS.
Tour Station and all Apparatus.
Enjoy Light Refreshments.**
