## From the Desk of Ron Bellaire

Permit applicant,

I am sending this as an aid to filling out the electrical permit application. Please take the time to read, as incomplete applications will be sent back and the issuance of the permit will be delayed.

**Section I: Homeowner name & Job Location.** Fill out all parts. One of the building permit boxes must be checked.

**Section II: Contractor/Homeowner Information:** If your home address is the same as the job location, mark same as above or write in your current mailing address and check the homeowner box. Be sure to include the property ID number. Note that all the other boxes are for licensed electrical contractors and the homeowner only needs to fill in your telephone number and email.

**Section III: Type of Job:** Mark the box that applies to your installation. If there is no appropriate box, mark other, and write type of work it is.

**Section IV: Plan Review Required:** Plan review is usually for commercial and industrial jobs, Service or feeder must be over 400 amps and the size of the project exceeds 3500 square feet. Plans may be require for projects with unusual design characteristics. Complete electrical drawings stamped by an architect or engineer must be submitted, plan review fees are calculated at 60 % of the electrical permit fees, paid before a permit can be issued.

**Sections V & VI: Applicant Signature & Homeowner Affidavit:** If you are the applicant and homeowner, please read both parts, noting that only homeowners that reside at the address and licensed electrical contractors with a few exceptions can be issued permits and install electrical equipment in Michigan. Homeowners should read the affidavit carefully as they are liable for all of the electrical work, including personally installing it and scheduling inspections. It is a violation for a land owner to alter electrical equipment in rental or flip properties.

**Section VII:** This is informational only.

**Section VIII: Fee Chart** Any item you are installing has fees involved. The fees shown on the application are itemized; items #1 & #29 are to be included on all applications. If a service is needed then an item 2 thru 6 should be marked, unless you are installing a temporary service for new construction then line 2T would be required. Line 10 is the number of circuit breakers you will install in electrical panels. Each item in line 11 equals 25 fixtures. All residential services require item 8 (feeder). Lines 23 is for commercial fire alarms (not residential smoke detectors). Please call me if you have any questions on your installation at 269-663-3429.

**Section IX: Please read,** Very important. Note area under section IX.

**Section X: Utility work order number:** If a new, temporary, repaired or replaced electrical service is to be installed then the power company must be notified, preferably before any work is done. They will issue a work order or energy request number. If it's not available at time of permit application, then it must be given to the inspector at time of inspection request.

Some jurisdictions have passed local ordinances (laws) that increase or double permit fees in the event a job is started before a permit is issued, an advance phone call to me can usually avoid this.

I this instruction is used with the fill in PDF application all fields can be filled in before printing except the fee total and the signature block. Please call me if you have questions.

Respectfully, *Ron Bellaire*  
Electrical Inspector

# ELECTRICAL PERMIT APPLICATION

## Mason Township

Permit Number (office use only)	—
------------------------------------	---

AUTHORITY: P.A. 230 OF 1972, AS AMENDED

<input type="checkbox"/> Single Family	<input type="checkbox"/> New <input type="checkbox"/> Garage	<input type="checkbox"/> Alteration	<input type="checkbox"/> Pre-manufactured Home Setup (State Approved)	<input type="checkbox"/> Industrial
<input type="checkbox"/> Pole Barn	<input type="checkbox"/> other (write in)	<input type="checkbox"/> Special Inspection	<input type="checkbox"/> Manufactured Home Setup (HUD Mobile Home)	<input type="checkbox"/> Commercial

### IV. PLAN REVIEW REQUIRED

See below for plan review requirements before completing this section. Plans and specifications must be submitted when the wiring or alteration to an electrical system is over 400 amps and is in excess of 3,500 square feet in all buildings.

What is the rating of the service or feeder in amperes? \_\_\_\_\_  
 What is the building size in square feet? \_\_\_\_\_

Have plans been submitted?     YES     NO     NOT REQUIRED

Plans are required for all building types and shall be prepared by or under the direct supervision of an architect or engineer licensed pursuant to Act No. 299 of the Public Acts of 1980, as amended, and shall bear that architect's or engineer's signature and seal, except:

1. When the electrical system rating does not exceed 400 amps and the building is not over 3,500 square feet in area.
2. Work completed by a governmental subdivision or state agency costing less than \$15,000.00

**PLANS MUST BE SUBMITTED BEFORE A PERMIT CAN BE ISSUED.**

### V. APPLICANT SIGNATURE

**Section 23a of the State Construction Code Act of 1972, 1972 PA 230, MCL 125.1523A, prohibits a person from conspiring to circumvent the licensing requirements of this state relating to persons who are to perform work on a residential structure. Violators of sections 23a are subjected to civil fines.**

Signature of Licensee or Homeowner (Homeowner signature indicates compliance with Section VI. Homeowner Affidavit)	Date
--	------

### VI. HOMEOWNER AFFIDAVIT

I hereby certify the electrical work described on this permit application shall be installed by myself in my own home in which I am living or about to occupy. All work shall be installed in accordance with the Electrical Code and shall not be enclosed, covered up, or put into operation until it has been inspected and approved by the Electrical Inspector. I will cooperate with the Electrical Inspector and assume the responsibility to arrange for necessary inspections.

**COMPLETE APPLICATION ON BACK SIDE**

**VII. FEE CLARIFICATIONS**

ITEM #17, MOBILE HOME SITE:  
 When installing a site service in a park, the permit application must include the application & inspection fee, service, plus the number of park sites.

---	---

**IX. INSTRUCTIONS FOR COMPLETING APPLICATION**

**GENERAL:** Electrical work shall not be started until the application for permit has been filed. All installations shall be in conformance with the MI Electrical Code. No work shall be concealed until it has been inspected. When ready for an inspection, call the Electrical Inspector, providing as much advance notice, as possible. The Inspector will need the job location, type of inspection and permit number.

**EXPIRATION OF PERMIT:** A permit remains valid as long as work is progressing and inspections are requested and conducted. A permit shall become invalid if the authorized work is not commenced within six months after issuance of the permit or if the authorized work is suspended or abandoned for a period of six months after the time of commencing the work. **A PERMIT WILL BE CANCELED WHEN NO INSPECTIONS ARE REQUESTED AND CONDUCTED WITHIN SIX MONTHS OF THE DATE OF ISSUANCE OR THE DATE OF A PREVIOUS INSPECTION. CANCELED PERMITS CANNOT BE REFUNDED OR REINSTATED.**

The Department will not discriminate against any individual or group because of race, sex, religion, age, national origin, marital status, handicap or political beliefs. Please note that inspection fee may be waived for sewage pumps, and well connections. Please call before completing form.

**X. UTILITY SERVICE ORDER NUMBER**

<p>If this application includes work involving service equipment, include the serving utility work order number here.</p>
